Subject: EXTENDING APPRECIATIONS

On behalf of **ECD CYANYA**, we recognize and appreciate the donations and facilitations gave to our community. **ECD-CYANYA** is a community-based early childhood development centre whose mission is to provide early childhood development services to poor children in the range of three (3) years to six (6) years old.

In fact, ECD-CYANYA started to give services operating under the trees but with time community members got an engagement to build classrooms even though they were not enough to satisfy **145** students who are attending the services.

However, we hereby recognize and appreciate the donations and facilitations we recently received in the following way:

We extend our heartfelt gratitude to **FONDATION EET, Woodman family, Rotary club etc.....**for facilitating us an additional one (1) additional one classroom which helped us to reduce on high number of students who were in one classroom. Here, we can remind that one classroom was accommodating more than seventy(70) students.

Again, we wholeheartedly recognize and appreciate the contribution of our neighbor; **Famille Claessens-Gatete** (Marie-rose & claessens) **for repairing, painting and cleaning of the other two old classrooms and kitchen.**

On the other hand, We received a head teacher's office made of smooth, wooden table and the head teacher's chair gave by **Tiani's ltd by Jeff GASANA**

Again, we are giving thanks to **Paramount P&S Ltd** of **Emmanuel MUGISHA** for helping poor parents on the regard of **paying one teacher for this whole academic year ie from January to July 2022.**

On the other side, we highly appreciate our neighboring family;

GATETE Family for their tangible support in this process without forgetting their donations of **Water tap** and **school gate.**

Not only we recognize the donations but also we recognize the efforts, courage, punctuality and conducive technical advice we got from **Engineer Elie MWIZERWA**

Moreover, some other help, partnership or any other form of charity are welcomed in order to help our community reach a given level of accessing early childhood development services which are made of **Healths, education, nutrition, sanitation and children and parents' safety.**

Below you may find a detail about requirements for further making our community ECD a safe place for our little children to learn and grow.

Blessings.
